CAREER OBJECTIVES

Dynamic and results-oriented Senior Software Development Manager with over 9 years of experience in designing, developing, and implementing content management systems and ECM solutions. Adept at leading cross-functional teams to deliver high-quality software applications that drive business growth. Seeking a challenging role where I can leverage my expertise in Java, Spring, and Documentum to contribute to innovative projects.

PROFESSIONAL SUMMARY

Throughout my 9+ year career, I have tackled a range of positions that have strengthened my knowledge in Content Management System design, development, and implementation. As a seasoned Documentum Developer, Senior Software Engineer, and Manager of Software Development, I have been privileged to work with organizations of high repute, including DBBL, BanglaLink, NESCO, NTMC, LEAD GENERATION INC., Consumer Safety Watch, and the Election Commission of Bangladesh.

SPECIALTIES

- Expertise in leading software development projects from conception to deployment, specializing in Java, C#, and PHP.
- Profound knowledge in J2EE frameworks such as Spring and Apache OFBiz, with a track record of optimizing system performance and scalability.
- Skilled in guiding teams in the adoption and mastery of Documentum suite products, enhancing document management and workflow efficiency.

PROFESSIONAL SKILLS

Programming Languages	: Java, C#, PHP
Frameworks	: Spring, Struts, Apache OFBiz, MVC, Hibernate (Java)
Development Tools	: Eclipse, NetBeans, Visual Studio Code
Database Management	: MySQL, Oracle 11g, SQL Server, MongoDB
Documentum Suite	: Content Server, DFC, DQL, WDK, DA, DQMan

PROFESSIONAL EXPERIENCE
